### **Johnson Printing & Packaging is 100% Carbon Neutral**

*MINNEAPOLIS, MN*—Johnson Printing & Packaging Corporation (JP&P), an award winning, nationally recognized folding carton manufacturer announced today that they are 100% carbon neutral.

In addition to being FSC (Forest Stewardship Council) certified and manufacturing using 100% Wind Power, Johnson Printing & Packaging is now 100% carbon neutral.

“Becoming carbon neutral means we have neutralized our greenhouse gas emissions, assuring our business activities no longer contribute to the dangers of global warming,” said Tim Cattrysse, Johnson Printing & Packaging Operation Manager.

“Taking responsibility for our carbon footprint further highlights JP&P’s commitment to the environment. Because so many of our customers are focused on environmental sustainability, we are continuously pursuing new options. Becoming carbon neutral is just another spoke in the wheel of Johnson’s environmentally friendly operation.”

At Johnson Printing & Packaging, we choose to be proactive about environmental protection,” adds Cattrysse. “It benefits our customers, our employees and our world.”

Johnson Printing & Packaging was founded in 1921. JP&P’s complete in-house capabilities, talented professionals, and state of the art equipment make them the one-stop source for customers nationwide, including those in software, health and beauty, cosmetics, pharmaceuticals, medical, and consumer products. Johnson Printing & Packaging offers a wide range of services and capabilities including creative design, pre-press, printing, special coatings, windowing, gluing, security tags, kitting and fulfillment for packaging, point of purchase displays, preloaded inserts, carded packaging and more.
